Election Of Mayor July 28 In Madison

Acting Mayor to Run, Urges Debates; City Organization to Meet

A special election to fill the office of mayor of the city of Madison was set for Tuesday, July 28, in action taken Tuesday night by the Madison city council.

Candidates may file nomination petitions starting Monday at the office of Madison City Clerk John Belloff. Deadline for filing petitions was set as Monday, May 25.

Last day that candidates may withdraw or that objections can be filed to nominating petitions was extended one day to Monday, June 1, due to the Memorial Day holiday coinciding with the withdrawal deadline.

To Fill 33-Month Term
The municipal vacancy was created Feb. 16 by the death of Stephen A. Maers, who had served as the city's 15th mayor.

The current term expires in April 1973. Acting Mayor Raymond F. Kozielek was appointed as his successor by the city council on Feb. 17 to serve during the interim period prior to an election. By law, an election must take place before Aug. 16.

The possibility has arisen that Police Board President Mike Sasyk will receive strong backing for the mayor post after the night's council session today.

Throws 'Hat in Ring'
In a statement to the Press-Record following Tuesday night's council session, Mayor Kozielek disclosed that he will actively seek the post of mayor. He said:

"I am a candidate for mayor and I will ask the Madison City Organization for an endorsement."

"I have already made arrangements with my business associates to relieve me of specific responsibilities in order to devote full time to the job of mayor."

"I feel the issues before us today are such that the entire community, consisting of all the people, should join in a great debate by discussing these issues, the candidates, their qualifications and their platforms."

"I ask all citizens of Madison to consult with their friends in neighboring communities and compare municipal services with those of other cities. Tax dollars which are expended."

Debates at Centers, MHS
"I am prepared to debate my position on all issues with all candidates who may be forthcoming. I will make the community recreation centers available and ask that the Madison high school auditorium also be made available for this purpose."

"It is of the utmost importance that open discussion and (Continued on page 4, col. 1)

Teamsters Strike Forces John-Manville Shutdown

The John-Manville plant at Venice will shut down Monday for one week because of the teamsters strike of Local 600 at St. Louis which has made it impossible to ship the firm's products, M. R. Buyer, plant manager, announced today.

Other industrial plants in the area also were confronted with growing shipping problems as a result of the strike shutting off over-the-road trucking operations upon which most of the industries depend, at least in part, for materials and deliveries.

A spokesman at A. O. Smith Corp. said operations are continuing at a normal level this week but are being viewed on a week-to-week basis with a possibility of change at any time as the strike goes on.

Buyer said next week's shutdown at the John-Manville plant would eliminate all production activities. A few men will be kept on in the shipping department to handle local pickup orders and only a minimal maintenance crew will be retained, he said.

John-Manville, which manufactures asphalt roofing products, normally hires about 100 men under a three-shift operation, but only one shift has been operating for the past several months, Buyer said.

The plant will reopen the following week, "and we hope to continue operating," Buyer added, noting that future operation will depend upon the duration of the strike by truckers.

"We have been stockpiling our products and have been unable to ship them in any quantity since the teamsters walkout began," the plant manager said. He said the only deliveries since the walkout started have consisted of a few local pickups.

Area Problems Mount
The continuing walkout of over-the-road truck drivers tying up virtually all major freight shipments in the metropolitan area, as well as incoming shipments, was creating mounting problems throughout this area today.

A growing shortage of cigarettes and tobacco products was reported by retailers and the Zimring Vending Co. at Madison told the Press-Record. "We haven't received a shipment since the strike started."

The spokesman said the firm's warehouse stock is badly depleted and that "it just depends upon how long this strike lasts as to whether there will be any tobacco products on the market."

Zimring receives most of its supplies from St. Louis warehouses, but trucks will not permit the firm to make pickups there, the spokesman said. He said the same situation ap-

Landolt Retains County's Top Seat

Wins Foes' Challenge On Rules; Bids Called For Sheriff's Office

Harold Landolt, Alhambra township supervisor, was re-elected to his eighth term as chairman of the Madison county board of supervisors during a reorganization meeting Wednesday morning at the courthouse in Edwardsville.

He defeated Robert Ford of Wood River township by a 40-to-6 vote. Ford said he had accepted nomination for the chairmanship only to assure that at least two candidates would be offered to board members, and that he had "nothing against Landolt."

Ford's support came mostly from Wood River township members who were unsuccessful in affecting a revision of rules.

The rules committee introduced a resolution which would assure that each member of the county board would be appointed to at least one of the board's standing committees.

Measure Fails 33-11
After maneuvering to tie it in with other rules changes was unsuccessful, the measure failed to pass by a vote of 33-11. It was a major effort by the Wood River township members to obtain full representation on the county board for their residents and to obtain a committee assignment for Rodger Elble, Wood River township supervisor.

Landolt has refused to assign Elble to a committee, even to one of lesser importance, maintaining that Elble has been a dissident in many county programs. Elble has proved to be a long-standing political foe of the county board chairman.

The only other board member without a committee assignment is Claude Echols of Venice township, but by his own wish for personal reasons. Echols and Dan Charovich of Granite City, a member of the rules committee, were among the 11 voting for the change.

Pleads for Passage
An impassioned plea was made by Starr, incumbent of Wood River township for passage of the rule. He previously had prepared a resolution guaranteeing at least two and not more than three committee appointments for each member, but the rules committee would accept only a minimum of one with no maximum.

Landolt, when asked after the meeting if he would be willing to offer Elble a committee assignment, replied that he had a number of suggestions on the board and that he would "continue to say no."

Among several important, active committees may earn more than \$5000 per year for attending meetings at a per diem of \$25 a day while Elble receives per diem only for attending the regular monthly meeting of the board.

Amended rules adopted after the committee rule was separated called for an earlier meeting of the board. The parks and recreation committee (Continued on page 16, col. 5)

record high budget of \$310,899 and a 1970-71 tax levy in the same amount were adopted by the vote of about 15 electors in the annual meeting in the city hall Tuesday night.

The annual meeting followed a public hearing at 6 p.m. in which the tentative budget figures were given final approval without change. The town meeting convened at 7 p.m.

The electors approved a budget and tax levy of \$310,899 for the town fund, a budget and levy of \$180,849 for the general assistance fund, and a new levy of \$15,000 for municipal retirement, also the same as the budget figure.

Thomae Files New Suit To Contest Election

Charles C. Thomae of Bethalto, Republican candidate for state representative who lost to GOP nominee Robert J. Walters in the March primary election, filed a second petition to contest the election on Monday in Madison county circuit court.

The canvass of the ballots by Miss Eulalia Hotz, county clerk, showed Thomae had lost by 45 votes. A hearing date was set by Chief Circuit Judge Joseph J. Barr at 1:30 p.m. next Wednesday.

Thomae's initial initial petition was dismissed last week as neither he nor his attorney appeared for a hearing. It was reported that he has obtained another attorney, Edward G. Shong of Wood River.

Madison Firemen Appeal for Halt To Harassment

An appeal to parents and responsible adults in the West Madison area to use their influence in curbing harassment of firemen attempting to extinguish fires was issued Tuesday evening by senior Fifth Ward Alderman John Haynes of West Madison. Fire Chief Edward J. Miller and Mayor Raymond P. Kozelek.

Alderman Haynes told Madison council members Tuesday night that he was issuing the appeal for parental assistance in the aftermath of an incident which occurred the night of April 7, when a group of youths harassed firemen as they tried to put out a blaze in West Madison.

"When firemen arrived in response to a call, they were met by Black Egyptians who jumped on the fire truck and attempted to prevent the firemen from fighting the fire," Haynes said.

"They tried to cut the hose lines and snatch equipment from the firemen's hands, such actions could result not only in the loss of property, but of lives," Haynes added.

"On behalf of your sisters, mothers and parents, I urge that you do not harass the firemen. It is we who will lose," the alderman concluded.

Also noting the grave consequences of such activity, Fire Chief Miller said, "We have a duty to all citizens to fight fires whenever and wherever they happen and we try to do our job. If they had been successful in cutting the fire hoses or damaging the equipment, we could have lost a whole block."

"Our fire department is volunteer," the fire chief continued. "We have 20 good men and we don't want to lose any of them through irresponsible actions."

"I implore the people of West Madison, especially the parents, to talk to their children and guide them in the right direction."

Miller said later the incident, which involved the attempt to damage hoses and equipment, occurred at 10 p.m. Tuesday, April 7, when firemen were summoned to extinguish a blaze in the 900 block of Webster street.

Attributed to Arson

The fire, believed to have been set deliberately, destroyed two "disapidated" wooden sheds, resulting in little loss.

"There is no question," Miller noted, "that even a small wind could have changed the situation and created a large fire, possibly taking in one or two nearby residential blocks."

He said the youths, who appeared to be between 16 and 18 years, tried to "take over the fire truck. I guess they didn't like the way we went about fighting the blaze," he added.

Adding emphasis to Alderman Haynes' and Chief Miller's remarks to the council, Acting Mayor Kozelek asserted, "We are trying to protect all our interests and all our citizens. The answer to these problems does not lie in hiring more police or more firemen."

"We cannot maintain man-

Venice Town Ok's Tax Levy, Urges Depot Hearing

A tax levy of \$110,250, for the town fund and general assistance fund of Venice township was approved in the annual town meeting attended by about 15 electors in the city hall at Venice Tuesday afternoon.

The tax levy extension is \$65,134 less than the total budget of the funds, amounting to \$175,384. The new levies are in addition to a road and bridge fund budget and tax levy of \$22,580 which were given final approval in a public hearing March 31.

The electors approved the budget of \$75,966 for the town fund, \$89,168 for the general assistance fund and \$10,250 for the municipal retirement fund, and then adopted tax levies of \$25,000 for the town fund, \$75,000 for the general assistance fund and the full budgeted amount of \$10,250 for the municipal retirement fund.

Urging Depot Hearing. Acting on a resolution presented by Nick Vassilef, Madison attorney who was elected moderator of the meeting, the township electors joined Quincy municipalities in demanding a public hearing of the

government's proposal to shut down the Granite City Army Depot.

The resolution was identical to that adopted by the city councils of Granite City, Madison and Venice. It is directed to Secretary of Defense Melvin Laird and requests a public hearing to be held in the Granite City area to which Illinois senators, congressmen and other federal officials would be invited.

Also approved was a resolution calling upon the Illinois Constitutional Convention to preserve the present form of township government.

The electors approved annual reports of revenue and disbursements of the various township funds, all of which showed balances at the end of the 1969-70 fiscal year on March 30. Supervisor Arthur "Cooper" Moore reported total revenue of \$91,868 in the town fund. Disbursements amounted to \$63,107, leaving a balance of \$28,761.

Report Income, Expenses

In the general assistance fund, the supervisor reported, receipts totaled \$137,259 and expenses amounted to \$112,570, leaving a balance of \$24,689. The retirement fund had total income of \$17,550 and disbursements of \$12,622, leaving a balance of \$5,928. The township highway department reported revenue of \$12,334 and expenditures of \$11,157, leaving a \$1,176 balance.

A series of resolutions establishing per diem payments for services by town officials was approved by the electors. These also included a \$5000 annual compensation for the township collector, an increase of \$1000 over the previous salary of \$4000.

The other payments, \$16 per day for the town clerk and supervisor and \$25 per day for members of the town board of auditors, were unchanged from last year's payments.

Nameoki Acts on Elector Issue; OKs New Tax Levy

Action on the highway controversial issue of whether a "tax" must be approved by Nameoki town meeting, which was held Tuesday night in which a new budget and tax levy were adopted.

About 60 persons attended the meeting in the Long Lake fire hall at Pontoon Beach which had been obtained as a meeting place because town officials anticipated a large crowd.

The question of registration of persons permitted to vote on township matters arose when Town Clerk Louis Whitsell presented the township by-laws for approval by the electors. Included in by-laws was a section providing that electors allowed to participate in town matters would qualify as such only if they are registered as voters.

Supervisor Harry Briggs objected to the issue, claiming a motion that it be stricken until the matter can be presented to the state attorney, and subsequently presented to the Illinois attorney general for an opinion. Briggs contended that any person living within the township who meets the qualifications of a voter, regardless of whether he is registered, is qualified as an elector in township activities.

On a show-of-hands vote that followed debate on the issue, only nine votes were cast in favor of Briggs' motion. Briggs said after the meeting he will take the matter to the state attorney's office regardless of the meeting action.

The electors approved a new budget of \$56,240 for the town fund, and a tax levy in the same amount. They approved a general assistance fund budget of \$79,680 and a tax levy of \$39,000 because part of the assistance fund expenditures are financed with state money. The budget and tax levy for municipal retirement payments totaled \$600.

Road and bridge fund and hard road fund budgets which were established in a March 31 public hearing are not presented by the highway commissioner for adoption of a tax levy until Sept. 1.

A resolution urging the Illinois Constitutional Convention to retain the township form of government in the new constitution was adopted. The electors also approved resolutions setting a per diem fee of \$25 for members of the town board of auditors and approved a resolution authorizing the town board to retain a certified public accountant to audit the township books.

Tag Days Successful Band Parents Told

The recent "Tag Days" sponsored by the Granite City high school band to finance the band members' tour through the southern states was highly successful, Melvin T. Gilie, president of the Granite City Band Parents Association, reported to the group Tuesday evening.

Success of the campaign was mainly due to the efforts of Mrs. Leroy Jung and Mrs. Carl Mathias, project co-chairmen, Gilie said.

He also praised the youthful musicians who relinquished their Easter holidays to participate and expressed appreciation to Jack Johnson of Johnson's Music store for donating the tags.

"Proceeds will be used for expenses on the band's tour to Houston and Galveston, Tex., May 4 to 8.

Chaperones still are needed to accompany the 11-member group, Gilie said, noting that one chaperone is required for each ten students.

At Tuesday's meeting, Mrs. Joseph Mills asked for volunteers to work in the association's concession stand at the Madison county track meet on Tuesday, April 28, and in a special booth at the July 4 celebration in Wilson Park.

Refreshments were served to 30 members by Mrs. Derwood Bone and Mrs. Mills following the meeting.

MORE ABOUT 708 Board

ing over the operation of a local clinic," Gramlich said.

In other action, 708 board members on a motion by Edwin Reiske of Granite City held up final approval of contracts with the Alton Mental Health Clinic and Specialized Services at Alton. Reiske pointed out several revisions had been made in the contracts since the last 708 board meeting, and that copies of the revised contract had not been submitted in advance of Tuesday night's meeting.

Alton Payments OK'd
"We had intended to sign the contract tonight, if we had been given a chance to read them first," Chairman Gramlich added. The board went on to approve monthly payments of \$5750 to the Alton clinic and \$1517 to the Alton Specialized Services center.

The board noted that a balance of \$131,000 available, and upon conferring with County Auditor John Kravynak during the meeting decided to invest \$79,000 in short-term interest-bearing U. S. Treasury notes. The action was praised by Reiske as a savings to taxpayers.

Re-approved by the board was payment of a second \$1000 to the Madison County Association for Retarded Children of Alton. The Granite City Association for Aid to Retarded is supported by the Tri-Cities Area United Fund.

Marshall Smith, assistant state's attorney and legal advisor for the 708 board, commented that the mixup over the contracts and the payments now being made to other groups in the county pinpointed the need for an overall mental health director for the county.

Arthur Braudmeier of New Douglas, chairman of the county board's Mental Health committee, said he would submit names of persons willing to serve on a special advisory committee to the 708 board. The committee is to be made up of clinic directors, county supervisors and state mental health representatives.

Teamsters

plies to candy supplies which also are running low. Some tavern operators reported they have not been getting full deliveries from beer distributors who are not receiving their usual supplies from out-of-town breweries. One distributor who normally receives about 1000 cases of beer loads per week, received only two loads the first week of the strike, and four in the second week.

At the same time it was learned that beer truck drivers employed in the Quad-City area and other parts of the six-county area of Teamsters Local 525 are now negotiating a new contract. Their present contract expires May 1.

No Difficulties Now
William Doty, business representative of the Granite City office of Teamsters Local 525 said there have been no difficulties thus far and he does not anticipate a strike by beer truck drivers.

He said, however, that "this is the toughest year for contracts that I have experienced in my 20 years in this activity. The teamsters have low pay. After taxes they have very little left. At the same time, the businessman is pinched because business has been in a slump and money is tight. It makes for a tough situation all around."

Doty said that Teamsters Local 525 has about 80 different type of contracts that expire at different times throughout the year and union leaders are constantly in negotiation to renew new work agreements.

Little progress in the dispute that led to the walkout of 9500 teamsters in Local 600 at St. Louis resulting in the suspension of trucking movements throughout the area, was reported yesterday or early today.

Gators Need No Aid, Win 78-40

Coach Pete Robinson juggled the event assignments for his Gators, searching for the most efficient use of his strong first grade individuals Tuesday. Some of the marks were lower than previous outings, but the victory quotient was familiar and Grigsby strode to a 78-40 track victory at North of Collinsville.

Greg Becker was not disturbed by the new order of assignments; he dashed the century in a prime ninth grade time of 10.9 seconds. John Schooley won the 120-yard five hurdles with the clocking of 15 flat. Dave Macios was a tenth-second behind him for second.

Macios was second to none in the pole vault, soaring ten feet.

Central 8th Grade Sharp in Triangular

Central won the eighth grade division and Grigsby topped seventh graders in a triangular track meet at North of Collinsville Tuesday.

Team totals for the eighth: Central 88, North 53, Grigsby 184. Seventh grade: Grigsby 63, Central 52, North 21.

Mike Martinez crowded one Central runner as he gathered four first-place honors, pacing the team victory. He traveled over the 120-yard five hurdles in 15.7, three tenths of a second off the school mark. His other winning events were the ten-hurdles, high jump and 880-yard relay.

Jeff Schleicher came close to a school mark in the 880 run with a 2:26.4. Surprisingly, he was second behind Grigsby's Phil Shands (2:22).

Other major contributions to the eighth grade win: Mike Cochran 1st 100 dash, 2nd 220; Nick Harper 1st 220, 1st long jump; Tim Killian 1st discus. Sharp seventh grade Gators: Sonny Hankins 1st shot put and two second places Ed Hessel-dens 1st 220; Gary Kary 1st ten-hurdles and a 2nd; Drew Taylor 1st 440 dash and a 2nd.

Dupo Hitting Offsets Gardner, Scott of MHS

James Gardner slugged a belated home run as the Trojans lost 153 in Midwestern Conference play at Dupo Tuesday. The game was saved for Monday and was delayed one day by rain.

MHS next will be hosting two league foes. Highland on Friday and Roxana on Monday.

Bob Scott tripled for Madison with one out in the first inning. Courtney Prothro singled Scott home.

The Tigers retaliated with three runs in the last half of the first, two in the second, three in the third, two in the fourth, two in the fifth and one run in the sixth.

Gardner gave his display of power in the fifth. He pounded a shot to right-center for a two-run homer. Ron Warchol had gained first base on an error.

Other Trojan hits were by Mark Wells, Bert Thompson and Charles Presale.

Austin Lewis started on the mound and took the loss. He went 3 1/2 frames, fanning one, walking three and giving up eight runs on six hits.

David Ueberck relieved Lewis retiring one Tiger swinging; he walked three and allowed two runs on one hit.

Prothro went to the hill during the fifth and pitched the rest of the game. He allowed three runs, three hits and three walks, striking out two.

Cumulative points by grade divisions: ninth - Roxana 73 1/2, Bethalto 68, Prather 22, eighth - East Alton 60, Roxana 39, Prather 35; seventh - Roxana 94, East Alton 45, Prather 34.

Top ninth grade local entries: Russ Miller 1st discus; Dave Geisler 1st long jump, 2nd 440 dash; Bill Hunt 2nd high jump.

Belshe Homers Spark Early Cougar Success

Batter averages early in a season gyrate up and down faster than the spring weather in which the games are played. However, after seven games, Coach Roy Lee of the Southern Illinois University-Southeastern campus baseball team thought he could definitely spot some trends which mean something.

For one thing, this year's Cougar team batting, after racing to a 6-1 record, is a lousy .281, while the 1969 team effort for 28 games was .218.

"The 68 percentage points don't seem to be too much," said Lee, but he pointed out that serious students of baseball "know that it means the difference between a winning and losing year." Last season, the Cougars' second in intercollegiate competition, was 11-14-1.

Of the five players who started and played nearly every minute of the seven-game schedule, centerfielder Jerry Pichler of Collinsville, second baseman Dennis Schutzenhofer, Belleville, left fielder and team captain Dan Weaver, Alton, first baseman Dave Hays, Crab Orchard, Ill., and shortstop John Belk, Jennings, Mo., Pichler is setting the pace with his bat.

300 Last Year, This Year In 27 official trips, he cracked out nine hits for a .333 average. To show his consistency, he batted .300 last season as a freshman while starring in the field.

Trailing Pichler is the surefielding Schutzenhofer with a .304 average. The other three starters' hitting averages are: Weaver, .286; Hays, .281; and Belk, .192.

Belleville Althoff's Rick Keefe, who has started in the Cougars' last five games and has apparently nailed down either the starting base, or shortstop position, is hitting at a sensational .375 clip, including a triple, a double and a four-

bagger in his last three official times at bat. Ron Rohling, a Valmeyer native who has been at bat 14 times but has apparently been moved out of his rightfield position by Normandy's Dan Cole, is hitting a robust .333, including a single and a triple against Concordia April 11 when Coach Lee substituted him at first base late in the game won by SIU-SW, 16-0.

Cole has racked up a .400 average in 10 official times at bat.

Catchers Pace Offense Of the regular catchers, Mike Allarka, Edwardsville, has been at bat only seven times but has three hits for a terrific .429 average. Willis Bundy, another Valmeyer native, has hit safely four of 13 times for .308.

Freshman Roger Belshe, Granite City, who has caught two games, has connected for two hits for a .220 average. Those two hits were back-to-back home runs against Tulane University.

In the Cougars' pitching statistics, Coach Lee is even more optimistic about the future. The staff has a combined 1.60 ERA (earned run average) over seven games.

The pitching figures follow, showing win-loss and ERA in that order: Bruce Thompson, Granite City, 2-0, 1.00; Steve Malone, 2-0, 3.33; Harvey Self, 0-0, .00, 2.55; Innings in relief: Don Rains, Granite City, 0-1, 2.57; Mattings Sanderson, 0-0, 9.00, 1.11; Inning in relief: Don Poo, 2-0, .00; and Dan Klutho, 0-0, 0.00, 1.11 in relief.

State Conservation Areas Attract 3890 Sportsmen in Year

A total of 3890 sportsmen hunted on 11 state conservation areas during the 1969 season. Tom Evans, supervisor of the state Department of Conservation's division of game, said today. Evans reported that 3445 quail, rabbits, pheasants and squirrel were bagged.

"These conservation areas are hunted in fall and winter when they are not being used by campers, hikers and picnickers," Evans said.

"A permit is not required to hunt on them, but sportsmen must check in and out. We ask that the do this so that we can determine what game is bagged and how heavy the hunting pressure is."

The areas open in 1969 were Stephen Forbes in Marion county, near Omega; Randolph county area, near Chester; Hamilton county area, south-east of McLeansboro; Washington county area, south of Nashville; San Jule in Wayne county; Sam Parr in Jasper county; Red Hills, east of Lawrenceville; Saline county area, south of Harrisburg; McLean county area, north of LeRoy; Argyle State Park conservation area in McDonough county; Ramsey State Park area in Fayette county.

"We don't release pen-reared game on these areas," Evans said. "We manage them to produce high game populations by planting cover and food."

"Many people believe that the shotgun is the most important factor in controlling small game populations," Evans said. "But this is not true. Populations are controlled by the environment—not the shotgun."

"Sportsmen and other interested people can visit one of these areas and see how land can be managed to produce bumper game crops."

"A landowner can achieve the same result on his own property by managing his property for wildlife. Our game technicians are willing to help any landowner who wants to improve conditions for wildlife on his property."

Etude Club Presents Student Guest Night

A special program of music and dances, performed by area young people, highlighted the annual "Student Guest Night" of the Evening Etude Club last evening at Central Christian Church.

About 50 persons attended the program which was based on the theme, "A Musical Manifesto of 20th Century Music," and consisted of selections by a chamber orchestral group and a percussion ensemble, vocal and piano duets and solos and a presentation by the Modern Dance Club of Granite City high school.

Mrs. Joe Bilbre, Etude president welcomed the guests, sketched a brief history of the club and invited persons interested in music to become members. She said club officers are Mrs. Jack French, vice-president and Mrs. Joseph Owens, secretary-treasurer.

Others who may be contacted for membership information include Mrs. Bob Barton, Mrs. Barbara Bryan, Mrs. Richard Branding, Mrs. Robert Kozielek, Miss Rosemary Kaburek and Miss Elsie Mayhew.

Mrs. Branding presented three solo numbers—"A Memory" by Ganz; "Snowdrops" by Prokofiev; and "In the Silence of the Night" by Rachmaninoff, accompanied by Mrs. Catherine French at the piano.

A chamber group, under the direction of Miss Linda Beane, an instructor of music in the local school system, consisted of students—Mary Beth Gordon, Linda Beane, Judy Dular, David Trower, John Grindstaff and David Cedor, first violins; Peggy Chalupny, Ger-

The Henry girl and her tutor, Mrs. Judy Owens of Granite City, later presented a duet for piano, entitled "Andante" by Igor Stravinsky.

Performing a series of dance routines were members of the Modern Dance Club under the direction of Miss Dorothy Mitchell, an instructor at the local high school. Participants included Linda Oram, Rae Lynn Holmdahl, Valerie Law, Beverly Henderson, Kathy Ad-folter, Debbie Moore, Susan Kemper, Anita Rosky and Valerie McCleary.

Picketing Supports Demand for Housing

Demonstrations and picketing at the offices of the Madison County Housing Authority in Madison were initiated this week by Black Egyptians of Venice and Madison who said their actions were in support of a request that the housing authority rent an apartment to a West Madison mother of five children.

Frank Wooten, president of the Black Egyptians organization, said the family is living in a house that is in critical disrepair. The mother receives Aid to Dependent Children compensation and could afford rent for the unit, he said, alleging that the housing authority refuses to provide a unit.

In reporting the incident to Madison police during a demonstration by more than 30 persons Monday afternoon, Wooten and Tyrone Walker, a member of the Black Egyptians, said the mother has had an application for a housing unit on file for three years.

They said there are 15 unoccupied units in the Gareche and Greiner Homes.

Miss Anna May Moore, executive director of the Madison County Housing Authority, declined to comment on the issue. She said she had "no statement whatever" in regard to the matter.

Anti-Rabies Clinics In Madison, Venice

Pet owners in Venice and Madison may take their animals for anti-rabies inoculations on the next two Saturday afternoons to separate clinics set up at city garages in the two communities. It was announced at the Madison council meeting Tuesday night.

Clinic hours this Saturday at the Venice city garage will be from 12:30 p.m. to 2 p.m. The following Saturday, April 25, anti-rabies shots will be given from 12:30 p.m. to 2:30 p.m. at the Madison city garage.

Local veterinarians, Dr. L. H. Holt and Dr. L. O. Tadlock, will be on duty at the community-sponsored clinics.

Through the program, a fee of \$3 is charged for each pet, instead of the usual \$4 charge, it was explained.

Anti-rabies serum for cats also will be available at the inoculation centers.

Dale Mortland, committee chairman cited other losses which would occur as the depot's bomb disposal squad, depot fire department assistance to the community, help to needy families at Christmas, United Fund support, support to national health agencies and the Red Cross blood bank, all of which he said are worthy of consideration.

A report was made by John Melot, administrative assistant to U. S. Sen. Ralph Smith, on the senator's cooperative role in Washington.

Sen. Smith Acts

Sen. Smith this week repeated his call for Defense Department reconsideration of shutdowns or cutbacks for nine military installations in Illinois and demanded "an equitable distribution of any government property or shutdown or cutback that does come about."

He summoned representatives of the Defense Department to address a delegation of Illinois representatives and senators to "render an account of the military and economic rationale for the cutbacks."

He invited other department officers "to assess the prospects for donation of affected properties to the state or local communities for educational, health, recreational or other public use—should any of the ordered cutbacks actually come about."

Sen. Smith already has proposed donation of the depot for elderly housing, recreational

The county officers committee to assist the county auditor in the annual meeting of stockholders in the Granite City GSI plant this morning.

Gray noted, however, that the loss had been anticipated and the company still expects to hold this year's total earnings over the same level achieved last year, despite a substantially lower volume of sales. He pointed out that while GSI experienced its best earnings in the first and second quarters of 1969, "We know, on the other hand, that in 1970 virtually all of our earnings would be in the last three quarters."

He said net sales for the quarter ended March 31 amounted to \$15,942,000 which represents an operating loss of \$198,000, or 8 cents per share.

He said this compares with net sales of \$38,755,000 in the first quarter of 1969, a net income of \$970,000, or 18 cents a share.

GC Plant Sales Off

"The change in GSI's earnings for this year is a result of the situation of our two largest operating divisions," Gray told the meeting. "The Castings Division's (Granite City) first quarter sales were off over 40% from last year, and the St. Louis Car Division is in a different phase of the car building cycle."

Gray told the meeting that the teamsters strike "is having a serious effect on our business. It has already forced the closing of three of our plants and others will have to shut down."

GSI Sales Down; Expect Sharp Pickup for Year

Net sales of General Steel Industries, Inc. during the first quarter of this year dropped \$23 million below those of the same period in 1969, resulting in an 8-cent-per-share operating loss, W. Ashley Gray Jr., president, told an annual meeting of stockholders in the Granite City GSI plant this morning.

Gray noted, however, that the loss had been anticipated and the company still expects to hold this year's total earnings over the same level achieved last year, despite a substantially lower volume of sales. He pointed out that while GSI experienced its best earnings in the first and second quarters of 1969, "We know, on the other hand, that in 1970 virtually all of our earnings would be in the last three quarters."

Hearing April 24 On Urban Fiscal Responsibility

A public hearing will be conducted from 10 a.m. to 3:30 p.m. Friday, April 24, in East St. Louis by the Madison-St. Clair Counties Regional Advisory Committee to the Illinois Commission on Urban Area Government.

Information is being sought on ways the Illinois General Assembly could achieve increased fiscal responsibility among local government agencies in the two counties.

Edward G. Masak, an East St. Louis attorney who is chairman of the Regional Advisory Committee, announced today that the public hearing will deal with two questions:

1. Is greater fiscal responsibility needed in the administration of urban area government units in St. Clair and Madison counties?
2. What changes in existing statutory law are desirable to achieve a sound financial base and fiscal responsibility in the affairs of urban area government units in St. Clair and Madison counties?

Citizens attending are asked to submit written legislative proposals. Each will be given ten minutes to verbally summarize his presentation.

Location of the hearing will be the fourth floor courtroom of the city hall, 7 Collinsville avenue, East St. Louis.

The committee previously held a hearing which aided in developing recommendations which were submitted to the Illinois Constitutional Convention.

Robert E. Merriam and Edward W. Wilson are co-chairmen of the state commission. Mrs. Wyvette Young of East St. Louis is a state vice-chairman.

Retired Group Hears Living Cost, Tax Data

Federal and state income tax and the cost of living increase were topics at the monthly meeting of the National Association Retired Civil Employees, on Monday afternoon at the Grand Cafe.

Eighteen members attended including Mrs. Adeline Dishong, who joined the group, and two guests, Willard Messer and Miss Brown.

Walter Franklin, formerly of Madison, gave an informative version of legislative progress at both the state and federal levels. Members were urged to contact congressmen and representatives concerning legislation for retired persons.

The membership committee was also urged to contact any residents who will be retiring as a result of the recent military cut backs.

After the business session, Franklin, entertained the group with several scale models of bridges he has constructed, including the McKinley bridge, Carle suspension bridge and a covered bridge.

Several members recalled participating in the opening of the McKinley bridge in 1916 when it was possible to walk across to the Missouri side.

The report showed that shipment of petroleum products to up-river destinations picked up sharply over February tonnage as did the down-river shipments of grain. Coal shipments to up-river points were more than doubled over February movements.

Freight shipments during March included:

Petroleum products, 708,650 tons up river and 139,575 tons down river; grain, 17,950 tons up and 1,541,400 tons down; coal, 856,650 up and none down; cement, sand and gravel, 36,638 up and 20,200 down; sulphur, 6275 up and none down; miscellaneous commodities, 485,275 up and 72,635 down; iron and steel products, 76,650 up and 177,740 down; chemicals, 351,074 up and 50,650 down; totals, 2,519,174 tons up river and 2,032,298 tons down river. In addition, 600 tons of government freight were locked through the canal.

Total Tonnage Up
The March shipments brought to 9,785,632 tons the total freight tonnage passing through the canal and locks during the first three months of the year, an increase of 1,201,100 tons over total freight of the same three-month period a year ago. A total of 8,584,532 tons moved

through the locks in the first three months of 1969.

The report showed that 991 towboats and 5064 barges were locked through the canal in March, bringing to 2322 the total number of towboats and to 10,364 the total number of barges moving through the locks during the three-month period. Two passenger boats, five recreational boats and 16 patrol boats also used the canal last month. Eleven government towboats and 17 government barges also moved through the canal.

Mississippi River Festival Assured--To Start July 2nd

The board of directors of the Mississippi River Festival voted Wednesday to approve a 1970 season of six weeks of classical music by the St. Louis Symphony Orchestra and at least ten rock-pop-folk concerts. All will be presented under the huge white Festival tent on the SIU-SW campus. A complete list of guest artists will be announced next week, Peter Pas-treich, managing director of the festival, said.

Symphony concerts will be on Thursday, Saturday and Sunday evenings. Pop, rock and folk concerts will be scheduled during the week.

Susskind to Direct
Walter Susskind, music director and conductor of the symphony, will return as music director of the Festival. Leonard Statkin, assistant conductor of the symphony, will be a guest conductor during the festival, along with other conductors yet to be named.

Season ticket and coupon book sales for the festival will begin April 30 throughout the metropolitan area. Patrons of the Festival will be given preference in ticket orders.

"Remarkable Support"
Gillis said the success of the drive for \$75,000 illustrated "the remarkable public support the Mississippi River Festival has gained in such communities as the Quad-Cities and Edwardsburg and among the students, faculty and staff of SIU-SW." "We are pleased to be able to continue the festival as a major cultural attraction for the bi-state area. Our goal for the 1970 season is to attract an audience of well over 100,000 people. The 1970 Festival will combine high variety and broad appeal. It

will be a major showcase of important artistic enterprise," Gillis said.

The new season will include 18 concerts by the St. Louis Symphony Orchestra and at least ten rock-pop-folk concerts. All will be presented under the huge white Festival tent on the SIU-SW campus. A complete list of guest artists will be announced next week, Peter Pas-treich, managing director of the festival, said.

Symphony concerts will be on Thursday, Saturday and Sunday evenings. Pop, rock and folk concerts will be scheduled during the week.

Ticket prices will be the same, except for lawn seating which will be \$2 for adults and \$1 for children under 12. Season symphony tickets will sell for from \$12 to \$54. Coupon books containing 46 in coupons redeemable for symphony or pop concerts will sell for \$20. The festival tent provides reserved seating for 1850 in canvas-back chairs. The tent is designed to eliminate all but two main masts. A cable pension system provides unobstructed viewing for up to 10,000 people who can be seated

Unions Demand Revision of Local MH Board

The Tri-City Trades and Labor Council requested by resolution last night that the Madison County 706 Mental Health Board withhold public funds from the Quad-City Mental Health Center until its board is reorganized to represent "a true cross section of the community."

Delegates from 32 union locals meeting in the Labor Temple voted unanimously in favor of the resolution which charged the board of the Quad-City Mental Health Center "does not contain any members who represent labor, any members of the legal profession, any members of the clergy, or any members representing the various service organizations of the area."

It was reported today that the Quad-City board has scheduled a special meeting tomorrow night to reorganize.

Two False Alarms

Granite City firemen answered two false alarms early this week—at 4:45 p.m. Monday in the 1700 block of Delmar avenue and at 9:15 p.m. Tuesday in the 2400 block of Benton street. Both were at dwellings.

East Bank Players Plan Next Production

By VALERIE EVENDEN

What do the Players plan next? How are they going to top "Guys and Dolls?"

Aftermath of the East Bank Players first public presentation, "Guys and Dolls," finds local theatrical devotees thoughtfully reflecting all possibilities as they ponder the next course of action.

The whole town's still buzzin' about the East Bank Players' recent successful two-night debut at the Granite City Elk's Club.

Never one to rest on her laurels, Mrs. Millie Heischler, who directed the Broadway fable, already has contacted Music Theatre International of New York for reading scripts in preparation of the Players' next offering.

The 49-member group also is preparing papers of incorporation and expect, within the next few weeks, to elect a board of directors and officers. A membership campaign is another objective.

Although plans for the next show are "strictly nebulous,"

it was discovered that two of the three reading scripts awaited by the Players are productions designed to appeal to the community's younger element—"The Wizard of Oz" and the western saga, "Destiny Rides Again."

Whichever show is selected, Players members hope to utilize children in the cast and present the vehicle under conditions most favorable to maximum viewing by a youthful audience at a minimum admission cost.

For those who missed the group's first production, it was an exhilarating experience—the performers and audience appearing equally to enjoy their roles.

At both sell-out performances, enthusiasm displayed by the cast overflowed to the viewers who greeted the initial presentation of the area's newest community theater group with appreciative applause.

Although the professional expertise of well-known nightclub entertainer and singer, Ray Paradisi of St. Louis, clearly illuminated and inspired the musical with his portrayal of Sky Masterson, the "guest star" was challenged for audience rapport by a virtual unknown talent, whose antics elicited howls of mirth.

Americ "Rik" Kachigian, cast in the role of Nicely-Nicely Johnson, a puckish gambler whose obvious aim in life was to continue uninterrupted dining regardless of his current task, proved a natural in the part. So perfect was the casting, in fact, it is now difficult to envision him in his serious off-stage role of assistant state's attorney.

Kachigian's musical number, "Sit Down You're Rocking the Boat," drew considerable applause, and his characterization should earn key roles in future Players productions.

Talented and vivacious, Diane Nocheff, gave a sparkling performance as Miss Adelaide, the leggy showgirl whose sole ambition is to bring her 14-year "engagement" with dapper Nathan Detroit (Stanley Coleman) to a marital conclusion.

Miss Nocheff's dazzling display of costumes for appearances with the lovely Hot Box chorines and her individual scenes was accomplished with finesse and remarkable speed—awareness to observe.

The third grade teacher at Marshall school also was responsible for choreographing "Guys and Dolls," no easily managed feat in view of the cabaret-style atmosphere in which the show was presented.

Mrs. Norma Mendoza, in her portrayal of Sarah Brown of the Save-A-Soul Mission was appealing, and her excellent voice blended harmoniously with the baritone of Paradisi. Her rendition of "If I Were a Bell," in which she is "slightly under the influence," was especially engaging.

"Luck Be a Lady Tonight" and "My Time of Day" came through strongly for Paradisi, who had good support from his "crapshooting" buddies in the former number.

Ted Ellerman as Big Jule from Chicago looked and sounded the part of an out-of-town hoodlum seeking dice action who forces the game to continue past normal endurance when he loses ten grand.

A performance possibly overlooked was turned in by John Payne in the role of Sarah's grandfather, the old Salvation Army worker, Arvid Abernathy.

Payne, a young man, gave a convincing portrayal of a grandfatherly type and was effective in singing a poignant melody, "More I Cannot Wish You," to his beloved granddaughter.

The direction by Millie Heischler was superb. All available entrances, exits and possible space was utilized to the utmost in presenting the musical under different and difficult surroundings, compared to a straight theater stage setting.

The audience, especially the male viewers, however, appreciated a close-up view of the glamour girls and responded with appropriate enthusiasm.

The pace was fast, the musical accompaniment by Ron Matson, pianist and Bill Drew, on drums, added important background depth; Dennis Hogan's accent as the Irish police lieutenant, Brannigan, was flawless; and the southside dialects produced for the occasion by Hank Lamb, Mike Tharp and Coleman left you wondering where the Players will go next—the Land of Oz or the Wild West.

Jack Benny Autographs GC Boy's First Violin

A youthful violinist from Granite City recently provided a "first" for veteran entertainer Jack Benny, whose career in show business has continued undiminished via vaudeville, radio, movies and television since he enlisted in the Navy in world war one and appeared with the "Great Lakes Revue."

Nine-year-old Jimmy Eftimoff, son of Mr. and Mrs. Vasil Eftimoff, 2800 Michigan avenue, went backstage to meet Benny and acquire his autograph after the entertainer's recent benefit performance with the St. Louis Symphony Orchestra.

The local boy thought "Mr. Benny was very nice" and that he talked and looked just as he had expected after having seen him on television programs. As he signed the youngster's violin, the comedian quipped that he had given many autographs, but this was a first for him. The world's most celebrated "39-year-old citizen" performed at Powell Symphony Hall, St. Louis, in one of many appearances with major symphony orchestras through which he helps raise funds for the orchestra's maintenance. The weekend concert was his second appearance with the St. Louis Symphony.

To date, Benny has assisted in raising \$4 1/2 million for charity. His program of serious symphonic presentations, which included Sarasate's Zigeuner

3 Youths Enter Winning Terriers In 2 Dog Shows

Three local youngsters entered their pet dogs in competition at Mt. Vernon and Carbondale over the weekend and each won an award.

Diana Cavins, with her dog, Ma Ha's Wes Benny Miss, a Cairn terrier, took two first places in the female puppy class and was the bitch reserve, competing against all female Cairn terriers entered in the show.

Deborah Sue Cavins entered her dog, a Lhasa Apso, Ma Ha's Teka Nicko Tai, and received two first-place wins in the puppy bitch class.

Their brother, Tim Cavins, is owner of a rare breed, a Lakeland terrier, Ma Ha's Zee Von Khourzan, who took a second and third place. He also received a fourth place in junior showmanship, competing against other youths eight to 12 years old at the Mt. Vernon Egyptian Kennel Club Dog Show.

There were 848 dogs representing 86 different breeds at the Egyptian Kennel Club All-Breed Dog Show held at the Mt. Vernon municipal airport. The show in Carbondale attracted 878 dogs, representing 87 different breeds, at the Crab Orchard Kennel Club held at the SIU arena.

The youngsters are children of Mr. and Mrs. Harold D. Cavins, 3315 Wabash avenue. Cavins trains dogs in obedience and guard and shows them as a hobby.

The Cavins' children will show their dogs again at Washington University, Francis field, on May 17 when the St. Louis Dog Breeders Association will present the annual American Kennel Club sanctioned all-breed dog show. Admission is \$1 per person.

Powell Poses Pollution Problem at Youth Meet

Secretary of state Paul Powell is urging members of the Illinois Youth Traffic Safety Conference to broaden their perspective to include the entire transportation picture.

Addressing the seventh annual state assembly of the conference at Springfield, last week, Powell said he was not asking the group to give up its present project, "but I do think that highway safety can be properly considered only in the light of its relationship to the total environment."

Air pollution and use of space are two important factors in the future of transportation in America. It is the young people of today who are going to have to face those problems, he said.

He pointed out that the automobile seems to be the worst offender in air pollution, and that there is considerable pressure to either clean it up or get rid of it.

"Less use of the automobile would bring a complete breakdown of the American way of life as we know it, because rail and urban transportation systems could not offset it, as 83% of working people travel to and from their jobs by automobile, and cities depend on the trucking industry for their food supplies," Powell said.

Sons of Legion Plan Meet with Alton Group

Ernie Edwards, commander of Tri-City Squadron 113, Sons of the American Legion, announced this week that members of East Alton Squadron 794 will attend the local squadron's next meeting on Sunday.

The purpose of the joint meeting is to discuss forming a divisional organization and the exchange of visits between S.A.L. squadrons in the area. An initiation of new members will take place during the meeting.

The local group meets on the first and third Sunday of each month at 2 p.m. at the American Legion hall, 24th street and Madison avenue. Members are asked to meet at 1 p.m. for the special meeting.

WINNERS IN DOG SHOW competition held at Mt. Vernon and Carbondale. Shown with their prize winning entries are Deborah Sue Cavins, Diane Cavins and Tim Cavins.

MECA Players to Stage Program in Madison

The MECA Players will present a theater performance for humanities student in Madison schools at noon April 30 at Madison high school.

MECA (Metropolitan Educational Center in the Arts), a federally funded agency, supplements arts programs in 143 school districts in the metropolitan area. The objective of the theater project is to enable children to experience the excitement of the live theater.

The MECA Players, a company of area actors, will improvise scenes which have been suggested by the students in addition to presenting set theater pieces.

One hundred and sixty students are enrolled in Madison humanities classes which come under the state program for the gifted.

Teachers in the classes are Edwin Barton, Beverly Williamson and Nelvin Heiser at the high school; Dorothy Patton and Lynne Wood Parker at Dunbar school and Elaine Shipoff and Marguerite Connoles at the junior high school. Mrs. Connoles is director of the program.

SIU Agronomy Unit Is Given New Name

The Southern Illinois University plan industries department has decided to change the name of its agronomy research unit in St. Clair county to more easily indicate its location, says George Kapusta, superintendent of the unit. Previously the area was known as the SIU South-

Kapusta says the name is being changed to the "SIU Belleville Research Center," which he considers a simpler tag that will more easily identify its location to most persons. The unit is just off Highway 161 opposite the south gate of Scott Air Base about midway between Mascoutah and Belleville.

The youth began scouting in July 1964 in Cub Pack 1, and he also is a member of the Order of Arrow. He presently is a member of Boy Scout Troop 8 sponsored by the First United Presbyterian Church of which Bob Burns is scoutmaster.

Plans Advance for State Junior High Convention

Plans are progressing for the convention of the Illinois Association of Junior High Student Councils to be held on Friday and Saturday of next week at Coolidge junior high school and Granite City high school, Miss Dorothy Hinson, Coolidge Student Council advisor and general chairman, announced.

Area residents are being asked to house student delegates — seventh, eighth and ninth graders — and volunteers may contact Miss Hinson at Coolidge.

Speakers for the Saturday general sessions will be Lt. Gov. Paul Simon, U. S. Sen. Ralph Smith and David Thompson of Granite City, former Peace Corps volunteer.

Discussion groups will be led by some high school students, representatives from the Chicago office of the Peace Corps, and Irving Miles of Coordinated Youth Services.

Entertainment for Friday evening will include programs by the Checkerboard Squares and by Coolidge's speech department. A dance will be held in the Coolidge gym with the "J. Christophers" providing the music.

Reservations have been received so far for about 550 students and 175 adults, Miss Hinson said.

Students will arrive between 2:30 and 5 p.m. on Friday. Persons housing students overnight are asked to meet them at Coolidge, provide the evening and breakfast meals and arrange transportation to and from Coolidge.

from Coolidge for the Friday evening session from 7:30 to 11 p.m. and return them to Coolidge by 9 a.m. Saturday.

Residents having available accommodations for two or more students were asked to contact Miss Hinson. Delegates at the convention will be representatives of schools from all over the state.

Coolidge, Grigsby and Prather junior high schools are co-hosting the affair.

Local DeMolays Attend Masonic Relations Day

More than 500 Masters and Past Masters of the Masonic Blue Lodges of southern Illinois, DeMolay officers and members, their advisors and fathers were in East St. Louis Sunday afternoon at the Shrine for "Masonic Relations" day.

Venice students used reaction and braking charts in keeping a record of the drivers participating in the demonstration. They were able to compare the scores of each participant with a set of averages.

At the conclusion of the demonstration each student was given a booklet, "When is a Car a Crocodile on Wheels," which emphasizes the importance of defensive driving.

Venice Students Take Defensive Driving Tests

Defensive driving—what is it? That's a question Venice high school students know how to answer after they witnessed an auto skid demonstration presented by Country Companies Insurance, Bloomington, last week.

It's common knowledge that young people have more traffic accidents than other drivers, but why? "A lot of the problem lies in the young person's attitude and driving experience," according to Eldon D. Gourley, public relations representative for the firm who conducted the demonstration.

"The importance of becoming a better defensive driver cannot be overemphasized," he said. He was assisted by Assistant Chief Dewey Brawley and Merl Hayden of the Venice police department.

Members of the student body participating were Liz Glover, Helen Young, Pat Porter and Larry Harris. Faculty members taking part were Mrs. Althea Cross, George Weimars and Ron Ganschitz. The tests were conducted at various speeds—20 to

40 miles per hour. The demonstration was arranged by Robert Brave, insurance agent.

One important feature of the demonstration showed that when an automobile's speed is doubled from 20 to 40 mph, the braking distance is four times greater. Faster speeds magnify the problem.

The demonstration automobile was equipped with a special device which indicates the distance traveled while the driver is moving his foot from the accelerator to the brake. In addition, it indicates the distance it takes to stop the automobile after the brake has been applied.

Venice students used reaction and braking charts in keeping a record of the drivers participating in the demonstration. They were able to compare the scores of each participant with a set of averages.

At the conclusion of the demonstration each student was given a booklet, "When is a Car a Crocodile on Wheels," which emphasizes the importance of defensive driving.

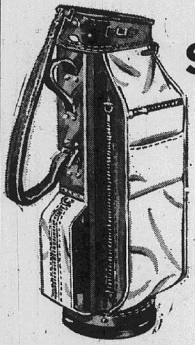

DEFENSIVE DRIVING demonstration participants at Venice high school included, left to right—Ronald Ganschitz and George Weimars, faculty drivers; Mrs. Althea Cross, faculty driver; Larry Harris, student driver; and Merl Hayden of the Venice police department.

ENVIRONMENT WEEK Proclamation for the special observance next week being signed by Mayor Partney. Looking on are Mrs. Ruth Malotki of the Gardenaires Garden Club and David Hordesky, president of the Group Against Society's Pollution (GASP) at Granite City high school.

Nationwide 'Teach-In' On Environment Quality

A nationwide teach-in will be held Wednesday, April 22, on the quality of environment and quality of life in America today.

National sponsors of the teach-in are Senator Gaylord Nelson of Wisconsin and Representative Paul McCloskey of California.

Objective of the national effort is to "mobilize the constructive energies of American youth and concerned adults to halt the destruction of our environment."

Broad public attention will be called to health hazards to mankind resulting from irresponsible and often irreparable damage to the environment from air, water and noise pollution. Indiscriminate use of dangerous pesticides, sewage and waste disposal, misuse of land and diminishing open space.

Locally, the Gardenaires Garden club has asked Granite City Mayor Donald Partney to declare the coming week as Environment Week to be coordinated with plans of the Coalition for the Environment: St. Louis Region, of which the club is a part.

Also, the Gardenaires "Mini-Garden Center" display at the public library will feature this month the questions raised by technological advances and environmental degradation. Pamphlets and magazine article reprints dealing with air pollution are available for interested people at the display.

Gardenaires are assisting the high school "Gasp" organization in their projects and proposals, noting that the Group Against Society's Pollution will sponsor a public forum Tuesday, April 21, at 7:30 p.m. at the Granite City high school auditorium on "Help Save Your World."

A Gardenaires spokesman commented, "There is no question that in the long run, the environmental challenge is the greatest faced by mankind. Distinguished scientific authorities have been warning for years that mankind is rapidly destroying the very habitat on which he depends for survival."

In addition, population continues to increase worldwide, while scientists warn that we may have already passed sustainable population levels. Yet, many are still not aware of the environmental problems being created by our advancing technology.

Federally-financed projects, such as the supersonic transport plane, raise grave questions about possible new environmental dangers.

Threat to Wildlife, People
"Many respected scientific leaders have indicated that although some positive steps have been taken, toxic persistent pesticides are still accumulating in the world environment, wreaking destruction on fish and wildlife and threatening man himself."

"We must ask if the price we pay for these products in terms of their effect upon our environment is worth the benefits we obtain from them. The pollution of our rivers and lakes, and of the air in our urban areas, continues to accelerate."

According to the Atmospheric Sciences Research Center, near Schenectady, N. Y., about 10,000 people will die in any single metropolitan area of the United States, from polluted air in 1986.

Breathing Helms Next?
"If the present trend continues, by 1990, every person in the hemisphere will have to wear a breathing helmet in order to survive outside air-filtered shelters."

"We are burying ourselves in solid waste, from 7,000,000 abandoned cars per year to five pounds of waste per day for every man, woman and child."

"There is no such thing as a 'consumer.' People simply use and discard, in some form, the same mass of material."

"Suburban sprawl continues to destroy vast scenic and recreational resources, with little being given to plans to create workable environments. We, here in Granite City, are in an area that could suffer massive air, water, land and noise pollution."

VA Explains Vets' Educational Allowance Increases

More than 777,000 veterans, servicemen, wives, widows and children will receive increased educational allowances under a bill signed recently by the President.

All trainees under the GI Bill and other VA educational programs were assured by Donald E. Johnson, administrator of veterans affairs, that they will receive the increases automatically and retroactive to Feb. 1. He stressed that it is not necessary to contact the VA to receive them.

Johnson said most of those studying under the GI Bill in institutions of higher learning will receive one check about May 10, which will reflect the new regular monthly rate, and include retroactive increases from February through April.

Apprentices, trainees, Veterans studying below college level, including apprentice, on-the-job and cooperative trainees, must certify their attendance to the VA every month to be eligible for educational allowance payments.

The VA Administrator said this group also will receive one check around May 10 at the new rates, including the retroactive increases, providing their attendance has been certified through April.

However, the VA official explained that some trainees below college level will receive pay adjustments in two checks, because the VA will not receive their monthly attendance certifications in time to include the increase in the first check.

The VA chief added that veterans training under the vocational rehabilitation program will receive their increased educational allowances in early June. Information on this group is not computerized and all processing will have to be done individually, requiring more time, he explained.

He also noted that special arrangements are being made to pay those who were in training on Feb. 1, but who are no longer in training.

Details of Statute Administrator Johnson gave these details on the statute itself (PL 91-219): It increases from \$130 to \$175 a month the rate for single GI Bill veterans studying in an institutional full-time program. A veteran with one dependent will receive \$206 a month, two dependents \$230, and \$13 for each additional dependent. Rates are scaled downward for less than full-time students. Single GI Bill students going three-quarter time will receive \$128 a month, \$152 with one dependent, \$177 with two dependents, and an additional \$10 a month for each additional dependent.

Half-time GI students will receive \$81 if they have no dependents. \$100 with one dependent, \$114 with two dependents and an extra \$7 for each additional dependent. The rate for a single veteran under the vocational rehabilitation program was increased from \$110 to \$135 a month for full-time students. A veteran with one dependent will receive \$181 a month, two dependents \$210, and \$6 more for each additional dependent. These rates are also scaled downward for less than full-time students.

For wives, widows and children receiving allowances under the dependents educational assistance program, the new monthly rates for full-time students are \$175, three-quarter time students \$128, and half-time students \$81. The new law also sets up special programs for servicemen with educational handicaps. One, the predischARGE education program, pays for schooling of educationally disadvantaged servicemen before discharge without charge to their

earned basic entitlement. In addition, the law provides for an intensification of VA's "outreach" program to contact and counsel veterans, widows, and children of certain disabled veterans about government education and training opportunities. Administrator Johnson urged veterans interested in applying for education or training benefits to contact their nearest VA office now for a certificate of eligibility.

Stripmine Institute On Environment Posed

A "blue-sky" study group summoned to chart long-range goals in environmental studies at Southern Illinois University has gone deep down to earth for one proposal.

The group suggests setting up an environmental institute in a stripmine somewhere near the Carbondale campus. Furthermore, says the group, every SIU sophomore should spend an entire quarter in residence at the site, learning about the latest in waste recycling and pollution abatement.

About 1000 students would be on the stripmine campus at all times during the school year, according to the blue-sky outline. The institute's goals in undergraduate education, says the group, would be based on the premise that "every student would ultimately work toward solutions of our environmental problems."

Chouteau Levies Tax of \$75,950, Hiked by \$46,950

Chouteau township tax levies totaling \$75,950, an increase of \$46,950 over last year's total of \$29,000, were approved by electors at the annual town meeting Tuesday night at the Fun & Sun resort.

Individual levies of \$38,300 for the town fund and \$37,650 for the general assistance fund matched the total budgets approved for the two funds. The levies were up \$14,300 in the town fund and \$22,650 in the general assistance fund.

The \$38,300 town fund budget was \$4285 over last year's amount, and the \$37,650 general assistance budget was up \$7680.

No action was taken this year on the road and bridge and permanent road budgets, which with levies, will be submitted to the county clerk in the fall.

The tentative road and bridge budget totals \$38,650, down \$100, and the permanent road budget shows \$24,000, down \$16,000. Nothing is listed for new equipment and buildings, which had a fund and levy of \$10,000 last year.

Depleted Balances
Walter Sparks, township supervisor, said the levies were the same as the budgets in the two funds as cash balances became depleted last year and an attempt is being made to rebuild township reserves.

The biggest problem, he told the 20 electors attending, was in the general assistance operation in which the township was forced to borrow \$6000 last year. He said new state statutes had eliminated the authority of the township to refuse to give aid to anyone who could come into the township from anywhere and demand relief. We have to give it to them. We also had a labor situation last year caused by strikes, and we were obliged under the law to take care of them."

Budget Breakdown
A breakdown of town and relief fund items, with comparisons with last year's figures, follows:

Town fund—Compensation of town officers, \$21,100, down \$675; elections, \$1275, up \$375; town officers expense, \$8325, up \$1245; other services, \$6900, up \$3300; and contingencies, \$500, same.

General assistance—Home relief, \$28,000, up \$900; hospitalization, \$5600, same; transients, \$150, same; burial, \$400, up \$100; administration, \$5150, up \$630; and contingencies, \$350, up \$50.

Compensation for town officers was fixed by the electors at \$100 for the township supervisor, \$2400 for the clerk, \$6000 for the assessor, \$5000 for the highway commissioner, \$3000 for the board of auditors, \$300 for the noxious weeds commissioner, \$3300 for the supervisor of relief and \$100 for the health officer. Per diem of the board of auditors remained at \$25.

Annexation Suit
Sparks was authorized to file suit against the city of Granite City to contest the annexation by the city of school property at Marvillville road and Route 203 under a court ruling is obtained on similar suits within a year of the annexation.

The supervisor and the electors were fearful of further encroachments by the city into the township in the future which would result in a loss in the township tax base. Nameoki township has a similar suit on file.

In answer to a question on the floor, Sparks said township precincts may be revised during the current year unless the county obtains voting machines. He said the machines could easily accommodate 1000 voters and would make boundary revisions unnecessary.

The electors approved a motion from the floor to purchase a 3x5-foot American flag for use at each polling place during elections, as the flags accompanying election supplies are unsatisfactory because of their small size.

Serving as moderator for the meeting was Charles C. Koch, a farmer. The electors voted to retain the 7 p.m. starting hour for the annual meeting next year.

Five Traffic Tickets Issued by GC Police
Five arrest tickets were issued Tuesday by Granite City police including two on charges of disobeying traffic signals. Those tickets were issued to Mary Mueller, 1527 Lindell blvd., at Nameoki and Johnson roads, and Albert Noud, 2449 Cleveland blvd., at 23rd and Madison avenue.

Luther Gann, 1516 Second street, Madison, was ticketed at 20th and Delmar avenue for failure to yield on a stop sign; David MacZura, 3208 Aubrey avenue, at 20th and Madison avenue in an improper muffler change; and Thomas Heck, 2657 Center street, at Nameoki and Johnson roads on a charge of operating a motor vehicle without a driver's license.

Electors Urge Con-Con to Save Town Government

A special resolution urging the Illinois Constitutional Convention to "preserve the present form of township government" was approved by town electors gathered in annual township meetings Tuesday.

Approval of the resolution was sought state-wide in town meetings in a move to nullify the resolution adopted by the 76th General Assembly that will require county boards of supervisors to reorganize themselves.

The same resolution was adopted in town meetings Tuesday in Venice, Granite City and Nameoki townships. Chouteau township was the only unit in the area that did not present the resolution.

The resolution states that the reorganization legislation will prohibit township supervisors from representing their electors on the county board.

Would Abolish Townships
It states that electors (who voted in favor of the resolution) "feel that inauguration of said reorganization would deprive them of proper representation."

Nameoki Road Bills Held Up in Feud Over Budget

The Nameoki town board refused Monday night to approve \$13,563 worth of bills in the road and bridge fund in a continuing dispute with Township Highway Commissioner Charles Hanks over the dates of the highway department's fiscal year, which does not coincide with that of the township government.

After approving routine bills against the town fund in Monday's meeting, board members asked Hanks if he had secured a legal opinion concerning the proper dates for the operating fiscal year of the township highway department. Hanks replied that he had not.

"The date is set by statute," Hanks replied.

The town board contends, however, that the highway department's fiscal year, unless established otherwise by ordinance or resolution, should be the same as that of the township which is from March 15 through March 14. The fiscal year of the Nameoki township highway department as operated by Hanks is Sept. 1 to Aug. 31.

Withhold Approval

As a result, Town Clerk Louis Whitsell, who served as chairman Monday night in the absence of Supervisor Harry Briggs, suggested the road and bridge fund bills be held up until the town board could determine if payment of the bills would exhaust the appropriations of the road and bridge fund. Whitsell claimed that Hanks' road and bridge fund appropriations were effective in 1969 and on the March 15 date, and if Hanks insists on a fiscal year date beginning Sept. 1, the last appropriation would span an 18-month period.

"Consequently, the appropriation for payment of these bills might be exhausted," Whitsell said.

Hanks later told the Press-Record that "according to law my bills don't have to be approved by the town board, they turn them in the bills. Then they turn right around and refuse to approve them," Hanks said.

Rotary Club Makes Plans For Modern Living Show

The Modern Living Show on Aug. 28, 29 and 30 at the Granite City Rink-Recreation Center in Wilson Park was the main topic at Tuesday's luncheon meeting of the Granite City Rotary Club at the YMCA.

As this is the third show, the club has hopes it will surpass the past attendance records and expects attendance of more than 500 persons to visit the displays and exhibits of products for more modern living.

Admission will be 25 cents per person with amusement rides for children on the outside of the building where admission will vary with the type of ride.

All proceeds will be applied to community projects. In the past, the Rotary Club has used earned funds for such things as an EKG machine for St. Elizabeth Hospital, a portable stage for the park district, an emergency vehicle for the fire department rescue squad and police dogs for the local police department.

Donald Adams of the Granite City Glass Co. is chairman for the 1970 show and Grad Krause

of Rosycki Realty is in charge of booth sales. All members will be selling booth space, and any interested may contact a member or the two chairmen.

Rev. David Maxton, pastor of the First United Presbyterian Church, was program chairman for the meeting and introduced Rev. Jesse Roberts, pastor of Niedringhaus United Methodist Church, who presented a program with slides of a trip made to Egypt in 1960 by Rev. Roberts, his wife and daughter.

Auto Struck in Rear

An auto driven by Jan R. Gitcher, 3304 Nameoki road, stopped for a traffic signal, was struck from behind by a car driven by Charles L. Feilchin, Edwardsville, at 7:55 p.m. Monday at 19th street and Cleveland blvd.

Instructor is Jerome Ficken Jr. Cost of the course is \$15 for club members and \$25 for non-members. Membership in the organization, the first of its type to be formed in the Quad-Cities, is open to owners of all registered pets.

In addition to planning a "fun match" in early August, through which it is hoped to graduate into a series of AKC-sanctioned dog shows at a later date, club members are interested in starting action to close "several loop-holes" in local animal control ordinances, Ficken said this week.

"We are not only interested in aiding persons having pets, but also in protecting residents without dogs from harassment on their property by strengthening the ordinance," Ficken explained.

A review of city ordinances pertaining to animals is under way by club members, who expect to present their recommendations to authorities.
